Subject: Re: 2025 Lakeside Villa Electrical Work

Hey Bob,

Here are the numbers we discussed for the Lakeside Villa project. This should cover everything for the initial rough-in and the final fixtures.

- Initial wiring and conduit installation: \$15,500
- Main service panel & breakers - 12,000
- Lighting Fixture Installation (materials + labor) - 7800
- Outlet and switch installation, about 4.5k

Total comes out to around \$39,800. Let me know what you think and we can get a formal contract written up.

Thanks,

John @ A-1 Electrical
